

Keeping Current

It's My Birthday

However, rather than celebrating, I am saddened by the events of last week and reminded of the work the communities of the St. Cloud area have done and have yet to do to empower our people and make us safe. Please see my video below with additional thoughts.

Thanks, Rick, for this testimonial:

I am writing to show my strong support of Tami Calhoun as a candidate for the Minnesota House of Representatives in House District 14A. I support Tami because she exemplifies the values that I believe will best serve the long-term interest of both the St. Cloud community and the State of Minnesota. I have come to know Tami and her value to the community by observing her role as a volunteer working within the faith community, in her leadership role with Isaiah/GRIP. I was thrilled when she decided to run for the State House of Representatives because I believe she is the right antidote for these turbulent times.

More than ten years ago my wife Carol and I founded the Central Minnesota Sustainability Project (CMSP). CMSP shortly thereafter founded Maine Prairie Garden with collaborative support from the City of St. Cloud. Maine Prairie Garden, located in Diocese City Park at the intersection of Maine Prairie Road and Quarry Road, has become a multicultural community building project where gardeners of multiple ethnicities come together to share their love of growing healthy food and the stories of their traditions. Maine Prairie Garden is a model for the kind of community building that Tami Calhoun has striven to engender through her professional career as a teacher and her long-time leadership role as a community volunteer.

--Rick Miller, Co-Founder, CMSP

*I am Tami Calhoun and I am ready to get to work.
Let's build community together.*
